

XTREME WHEELS™

**The Revolutionary Cost Saving Technology for
Bogie and Idler Wheels**

XTREME WHEELS™

**New
Replacement
Wheels**

**Wheel
Retreading
Service**

- **Up to 4 times more worklife than most OEM replacement wheels**
- **Eliminates bond failure - No Bond Failure Guarantee***
- **Extends rubber track life by lowering operating temperature & eliminating debris entrapment**
- **Maximizes productivity and increases savings**
- **Ideal for increasing pan scraper productivity**

XTREME WHEELS™

Exceed OEM Work-life

Owner operator's #1 choice for rubber tracked equipment and comes with the industry's only No Bond Failure Guarantee*.

No Bond Failures Guaranteed -

Proprietary bonding technology that resists heat and shear force to prevent debonding

Longest Wear-life - Polyurethane compound engineered to generate less heat, reduce chunking, and provide the highest cut & tear resistance

Resist the Elements - Unlike rubber, Xtreme Wheels™ polyurethane is resistant to Oils, UV, Weak Acids, Diesel Fuel, Moisture and more

Extend Rubber Track Life - Lower operating temperatures reduce rubber track deterioration. Tough polyurethane will not capture debris and score the track.

Available for Most Popular Equipment Makes**

- AGCO Challenger® MT
 - Case IH Quadtrac®
 - Case IH 9000
 - CAT® Challenger 35-55
 - CAT® Challenger 95E
 - CLAAS TerraTrac Combine
 - John Deere® RT
 - John Deere® 8000T
 - John Deere® 9000T
 - Various Asphalt Pavers
- And more...**

Site Proven Performance

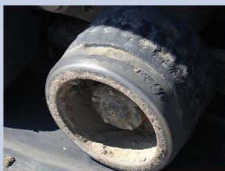

Tested on the same tractor, pulling dual pan scrapers

Xtreme Wheels™

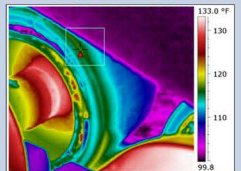

After 3000 hours of pan scraping - like new with no track damage

Rubber Wheels

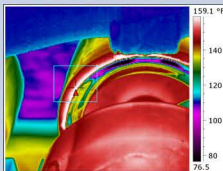

After only 347 hours of pan scraping - visible excessive damage and uneven wear. Wheels have to be replaced to prevent further track damage.

Xtreme Wheels™

Thermal image showing polyurethane's highest temperature at 117.0 °F, this lower temperature extends both rubber track and wheel wear-life

Rubber Wheels

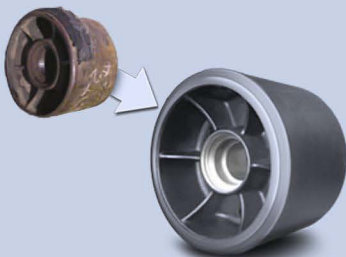

Thermal image recorded in the same usage interval as in Xtreme Wheels™, indicating rubber's highest temperature at 161.1 °F

Applications

Agricultural and construction applications that require continuous operation handling heavy loads, high speeds, and the towing of heavy implements such as pan scrapers. Xtreme Wheels™ hold up in the most extreme operating conditions and provide the longest work-life, significantly reducing downtime.

No Bond Failures Guaranteed!

Wheel Retreading Service

Enjoy significant savings and work 'green' by reusing your worn wheel cores. Cores can be retreaded to exceed OEM work-life - Call the experts at Superior Tire & Rubber Corp. to schedule your wheels for retreading.

No Bond Failure Guarantee*

Xtreme Wheels™ Polyurethane compounded wheels are backed by the industry's only No Bond Failure Guarantee*, further reassuring the extreme performance claim in Xtreme Wheels™.
