CushoGuard™

Polyurethane Load Protectors

Protect your load, shield your forks-

Protective polyurethane sleeves cushion all impacts and eliminates expensive scratching, chipping, marring and scuffing on both load and forks

Lower risk of cargo slippage, damage and lost profits - The malleable polyurethane absorbs vibration, minimizing product damage and loss

Easy to install with exact OEM matching sizes - Simply slide the load protector onto the fork and secure with the included mounting hardware

Extended Protection - The steel mesh reinforced heel prevents mounting bolt tear outs and reinforced toe end prevents CushoGuard™ damage from pinching with fork end, complimenting the remarkable durability and unmatched service life from our proprietary polyurethane compound

Dimensions (W x L)		Part Number	Shipping Weight (approx. lbs)
Size Inches	Size Metric (mm)		
4 Inch Width			
4 x 30	100 x 760	EFP01	4.0
4 x 32	100 x 813	EFP19	4.8
4 x 33.5	100 x 850	EFP02	5.0
4 x 36	100 x 915	EFP03	4.5
4 x 42	100 x 1070	EFP04	5.7
4 x 48	100 x 1220	EFP05	5.5
4 x 60	100 x 1520	EFP23	7.0
5 Inch Width			
5 x 36	125 x 915	EFP06	5.5
5 x 42	125 x 1070	EFP07	6.0
5 x 48	125 x 1220	EFP08	6.5
5 x 54	125 x 1372	EFP12	7.5
5 x 55	125 x 1400	EFP18	7.5
5 x 60	125 x 1520	EFP13	8.0
6 Inch Width			
6 x 36	150 x 915	EFP21	8.0
6 x 44	150 x 1118	EFP22	9.0
6 x 48	150 x 1220	EFP09	9.5
6 x 54	150 x 1372	EFP10	11.0
6 x 55	150 x 1400	EFP14	11.0
6 x 60	150 x 1524	EFP11	11.5

CushoGuard™ Applications

Exotic Castings	Plastic Products
Wire Productions	Coated Metals
Utility Cable	Stainless Steel
Drywall Paneling	Veneered Products
Building Materials	Tombstones,
Furniture	Granite & Marble
Food Products	Hazardous Waste
Paper Products	Chemicals
Storm Doors	
Windows & Glass	

Replacement Pins

Pin Size For CushoGuard™ Width	Part Number
4 in / 100mm	EFP01PIN
5 in / 125mm	EFP06PIN
6 in / 150mm	EFP09PIN

Also Available

Superior Tire & Rubber Corp's Material and Handling Components

The Ultimate Tire and Wheel Solution for Every Material Handling Application

Polyurethane Load Wheels

- Highest performance compounds in the market
- XL3™ Bonding tech, No Bond Failure Guarantee*

Polyurethane Press-on Tires

- Application specific proprietary compounds
- Improved traction with Cushothane® EZ™

Rubber Press-on Tires

- Premium compounds for all applications
- High and consistent quality and performance

STR Stabilizer Caster

- Patented PolyBlock™ technology provides greater stability in cornering, smoother ride and higher productivity.

Skid-Steer Tires

- Perfect match integral design, no assembly
- Full tread Premium rubber for longer wear
